DO NOT TRUST OR BELIEVE THESE SCAM ARTISTS,

They call me and tell me they want to show and sell my car after seeing my ad on craigs' list. (Yes that is right, they solicited me) The price was clearly marked, The person I talked to said they would try to get me my price. I drive down 80 miles after spending a week getting it ready. Then they inform me that they are not interested unless I lower the price. Yea, so they can make more profit. They can kiss my ass, I am going to make it my life's work to be a thorn in their side. I am a Member of a several car clubs and I sure can get the word out. That is Gateway Classic Cars in.
