Singer CE (250 USD)

Location **Hawaii**

https://www.genclassifieds.com/x-566796-z

This machine is a Singer CE-250 Sewing and Embroidery Machine. The machine comes with a disc containing the software required to run the machine in connection with a PC. A bonus with the machine is Futura Embroidery Software which includes AutoPunch (for auto-digitizing images), HyperFont (for converting your PC's TrueType fonts into embroidery), Auto Cross-Stitch (for converting clip art into cross stitching), and PhotoStitch (for converting photos into stitched-filled embroidery images). This is a great value. The machine is used but is still in nice condition. It comes with two hoops which are screwed into place. Please contact me if you are interested or have any questions. Thanks for your!
