What I have here is the doors shown. These doors are from a big series 1958 4-door Edsel, a Corsair, I have been told. They may have should be interchangeable with 57 & 58 Mercury's. ALL GLASS is present. I didn't have a window handle and didn't want to mash up the gear with a pair of pliers, but the glass is there as well as the regulators, etc. All exterior trim seems to be present as well as the door hinges themselves. Interior panels, hardware, etc are missing. These doors are in incredible shape for their age and do have surface rust. There are NO rusts holes through the metal. EMAIL me for more pics. \$200 for each door, CASH only, NO trades. CALL if you want to come look at them six 20-224-0636. If the ad is still up, I still have.
