This adorable black & white kitten is super loving and loves it best when he is being pet and held. He is a complete love! His foster says, "the black and white one wants to be a lap kitten. I had some friends over to play with them and all he wanted was to be held and cuddled. Sometimes all you have to do is look at him and he starts purring. If you pick up his buddy instead of him he meows like it is an injustice!"

This super sweet little darling is available to adopt with one of his buddies or can be adopted with another kitten. They love to play and have fun together so we would like them to go to homes in pairs of 2! His buddies are a black kitten who has a great personality and is very playful and loving and a brown tabby who is very sweet and cuddly. This black & white kitten and his buddies will be neutered next week and receive shots testing and dewormer plus flea treatment. All is included in their low adoption fee.
