

Lost Tabby Cat (Slidell)

Location **Louisiana**
<https://www.genclassifieds.com/x-566944-z>

Our cat went missing on July 9th in the Meadows neighbourhood by the mall in Slidell near the Belair subdivision. She ran out to play like she always does but this time she didn't return. She has a micro-chip if you bring her to a shelter or a vet so they can ID her.

Her name is Blythe, but comes when you call her by the name "PlayPlay". She is slim, mostly white but has dark brown and tan markings with stripes. She also wears a white flea collar and has bright green eyes. PlayPlay is very sweet but timid.

We are not crazy cat people, but she is so special and sweet it is hard not to worry about her and miss her a lot. My husband has spend the last few days searching, pacing the house, and looking out the window for her.

Please send an email if you find her. Or bring her to a shelter or vet that uses the micro-chip pet tracking system. Thank!
