

8 week old lab pit mix (Macomb)

Location

Michigan

<https://www.genclassifieds.com/x-567130-z>

I have recently gotten this puppy from a friend that could not take care of her. I will be going to college soon and feel it is more fair to the dog to find a better home with more time. I have taken her to the vet a few times now and she is very healthy and some of the vaccines are taken care of, let me know if you are interested thanks!
