

Online store for Omaha

Location **Iowa**
<https://www.genclassifieds.com/x-567156-z>

I posted this to freelancer, but I figured I should put it out to some local talent also.

If you're interested let me know

Build an Online Store \$100 - \$1000 USD

Project Description

The ideal freelancer will build Skintz an online store using a popular platform. freelancer will use Skintz artwork and build upon existing Skintz style to make a storefront that integrates nicely with existing Skintz design elements.

Storefront will be populated with products already on the Skintz eBay and Amazon stores. Once complete Skintz will manage storefront and pay any ongoing costs.

Store platform is to be determined by the freelancer, ongoing costs for the storefront should be provided to Skintz. Skintz does have a Storenvy account currently which is not being used, and does have a preference for that platform, but we are open to suggestions.

Skintz is open to various payment platform options, but currently has accounts setup with PayPal and Amazon. Ideally one or both of these payment platforms would be included in the checkout process.

Skintz will provide product photos, all descriptions, and design guidelines. The freelancer will provide all design and development services to Skintz on an exclusive basis. Skintz may delay or terminate the contract for the freelancer's services on the project regarding the project.
