Fellows, we have just the little dog for you!!! We decided since his tail is always wagging, that we would rename this little guy Happy. He is a charming little Chihuahua dachshund mix who is in rescue as he wasn't happy when his family kept adding new kids! His family was heartbroken to give him up but they wanted him to be happy so they all decided he is not doing kids anymore. But---Happy is just a lover boy with adults and especially men. He is okay with women but the minute foster dad is home, he's in his lap with tail wagging. Happy is just 4 years old he is quite playful, and he is a bit plump at 9 pounds. Happy gets along with other dogs and his little tail is always wagging as long as there are toys to play with or someone to pay attention to him. Happy is used to having a stay at home adult and we believe he would be terribly lonely home alone all day. A fenced yard is required unless you are a devoted walker. Gentleman, if you are a young retiree or work from home, this is your dog! Happy is house trained and in bad weather will use a puppy pad. He will make you laugh with his happy nature. Happy is with Happy Hound Rescue, a 501c3 all volunteer rescue and is in a foster home. Please, before emailing us read his full bio on his webpage: <http://www.adoptapet.com/pet/13122986-osseo-minnesota-chihuahua>
