Location **Hawaii**

Hey guys,

I'm looking for a kitchen to film a few cooking segments in. Doesn't have to be the nicest kitchen. Just a location with room to move around!

It's a no-budget film, thus the most i can compensate is food and credit.

My credit:

- local filmmaker that just returned from New York for video production.
- want to create a series of videos that I want to eventually show to networks.
- produced films that has been in film festivals.
- worked with local, national, and international video/photo.
