this little girl is super sweet. She is 5 months old and up to date on shots including rabies. She is create trained and knows sit. She walks well on a leash. She loves cats and likes dogs but takes a few min to get use to new dogs. At her last vet visit (2weeks ago) she weighed 12.5 lbs. she will probably be no more than 25 lbs when fully grown. She is in the process of potty training and doing well. We unfortunately do not have the time to love on her like she deserves. She must go to a great!
