Have a canon rebel and an ebay business. Need to learn how to use a cannon and sinc lighting in a VERY low light situation (basement). Understand that lighting is critical. I have a photographer to take pics for my ebay store, but need to learn to use my camera for back up. Please describe your experience and how you can help me.

1) I know nothing about photography and need to learn from that starting point 2) MUST understand lighting and low light situation 2) need to be shown how to process photos after. I would like to pay cash 20.00 an hour cash for 4 hours at a time. Please tell me if you can do this in 2 to 3 days and provide specific experience. Thank
