

Modern Glass Dining Table

Location **Minnesota**
<https://www.genclassifieds.com/x-568016-z>

For sale is my custom built dining room table, built by a professional architect. It seats 10 people and dimensions of the glass are 91" x 47". The glass is a racetrack oval shape, and has a custom wood base, with room for custom lighting to be installed. I don't have any chairs for it, which leaves options open depending on your taste.

The base is very light, but uses an arched design to greatly increase the strength.

This is a ONE OF A KIND dining room table! Impress guests at a fraction of the cost!

The glass is about 7/8" thick, and weighs 200-300lbs. Comparable pieces of glass go for over \$1000, since it is treated to not have an aqua tint given the thickness.

Please call or text Travis @6one2-275-6one5one
\$350
Thank you!
