If you Own older property, or can get permission on other property's 1940's AND EARLIER- Would you Feel like trying to find some coins on it OR Old Relics, OR your lost item now buried in your yard OR your older field, around a pond, fair grounds, old homesteads ,church school ETC?.. We are ABSOLUTE pro's with Metal Detectors and write stories for Western-Eastern Treasure magazine, a nation wide (how to) find treasure magazine-- We would like to afford "YOU" the opportunity to search with us..... We can bring an extra metal detector unit (just for you to use)--- We Use Small Hand Held Tools for digging and do not have to go down any more than 12 inches to find items!-- We will carefully cover the plug (hole) 5 inch by 12 inches deep, so you Won't see it because we respect your property!! Why not give it a try and see what we can find -- (You Keep) all modern coins that We find , If you can mention any lost personal items lost and we find them, they are yours! - All Historical items belonging to your homestead (You Keep) and (You Keep) every thing You Find with the detector too-- we just ask one simple favor--and that is to keep any silver dimes or quarters that We may find (BUT You Keep Your silver coins-)--on the average there are about 1-3 per yard We ask this because it cost us to travel from Whitehouse and Edison to your location, also the packs of battery's used and the use on the Detector you use have to be covered-- Now, In 44 years we have never, ever found a single gold coin but if we do WE will Share the value of it 50-50 with you exactly-- IF You find one-- it is all yours!! In General. a yard of about 50 x 70 takes about 1- hour to search- we will travel if the area sounds promising- Again, we are located in White house and Edison and will go up to 60 miles.. So then, Lets get something going for this early spring-- Just a reminder, my partner & I Will NOT GO into any structures , inside homes, barns etc.. This is just an "outside" search only, Thank you---
