

Handsome Orange (,,, USD)

Location **Missouri**  
<https://www.genclassifieds.com/x-568274-z>

I'm Wyatt. My foster mom loves me a lot. I hear her tell people she adores me. She says I am sweet and she loves my expressive eyes. I love my foster mom a lot too. I hang around by her feet. I try to help her work by laying on her keyboard. She thinks it's adorable that I sleep on my back.

I am possessive of my foster mom. I don't like it when the other cats want to see her too. I like the girl cats in the house better than the boy cats. If I was the only cat in the house I would have my people all to myself. I think I would like that.

I am FIV positive. Please don't let this scare you away from meeting me. FIV kitties can lead long, normal and healthy lives simply by being kept indoors only, receiving good nutrition and care, and getting annual veterinarian check-ups -- all things that every cat should receive. FIV is difficult to transfer to other cats and the primary transmission route is through a deep bite wound. It is not an airborne disease nor is it contagious through shared food dishes, litter boxes or grooming. Dogs and people cannot get FIV.

I need a special family. My gums get irritated sometimes. It hurts for me to eat. I get an injection to make me feel better. My foster mom says I am worth it. She hopes you'll give me a chance to show you I'm worth it.

Thanks for considering me as an addition to your family!
