

Complete Software Quality Assurance Testing Needs (Downtown)

Location **New York**
<https://www.genclassifieds.com/x-568423-z>

I specializes in delivering comprehensive, professional consulting services for today's Software Quality Assurance testing needs. Which includes

- Test Planning
- Regression testing
- Functional testing
- Testing Results/Reporting
- Performance testing and much more.

I offer a range of testing services to meet your quality assurance testing needs, from software testing to defect tracking. I strive to ensure that i can save your company time and reduce cost.

I have been a SQA manager for 8 years in the financial industry.

I offer expert software testing and QA services that span the entire software development life cycle.

Please include your phone # with your initial.
