

Paid clinical research studies (Fargo)

Location **North Dakota**
<https://www.genclassifieds.com/x-568502-z>

Generally healthy males and females ages 18 to 65 are needed for ongoing clinical research studies. If you're a non-smoker, have no medical conditions and are willing to spend 1 to 30 nights in a clinical research facility, you may be compensated from \$100 to \$300 a night. A screening process is required and not everyone will qualify.
