

Professional Flooring Installation (FM Area)

Location **North Dakota**
<https://www.genclassifieds.com/x-568642-z>

I am a professional flooring installer with extensive experience in all flooring types. I can install ceramic, natural stone, slate, carpet, laminate, vinyl, hardwood, DuraCeramic, and much more. Whether it's a simple backsplash in your kitchen, a custom tile shower, or just some carpet on your steps, no job is too small. I stand behind my work and there is never a charge for an estimate.

So if you need flooring installed, repaired, or replaced, for a fraction of what the big stores around town would make you pay, then drop me a line and let's get your home back to the way you want to see it.

Email me at

Fully insured with a \$1 million policy, professional service, exceptional craftsmanship.

And remember....If it's not good enough for my house, it's not good enough for.
