

Bonded Pair of Pitbulls Needs Rescue (Fargo, ND)

Location **North Dakota**
<https://www.genclassifieds.com/x-568714-z>

Rescue Needed!

Mother and son bonded pair of pits. Male is neutered, female is more than likely spayed, will confirm. UTD on vaccines. I estimate the male to be about 2-3 and the female not much older, maybe 4-5. They have great teeth! They are good with cats and kids. They are fine with other dogs, but if the other dog goes after one of them, the other will protect them.

Please e-mail if you are interested in helping these two.

Adopters are required to pay an adoption donation fee as well as go through an adoption application process including a background check, reference check, vet check and in-home.
