

I am 24 year old guitarist who has been playing for about 10 years. Playing mostly acoustic this entire time and developing my vocal abilities within their limits. That said, I've recently been learning all my scales to start playing serious electric lead and have had the pleasure of jamming with other musicians, many of which live in my house with me in NW Portland. With our drum set up, multiple amps, electric & acoustic-electric guitars, and soon to be set up microphones, we've got ourselves an up and coming jam spot. I find the urge to jam but our schedules conflict sometimes so I'm hoping to find folks that are available and want to rock.

I work real estate during the day which keeps me busy and unsure of my schedule most days. That said, in usually good to jam after 6pm on weekdays. Weekends are variable.

I'm into all music types but I think it's appropriate to list my artist influences below. If you want to meet up and jam, I'll learn whatever you want to play. Just list your artists, songs, whatever and send them back to me. Let's do this.
