

Sweet orange tabby kitten with amber eyes needs a loving home (Pownal)

Location **Vermont**
<https://www.genclassifieds.com/x-568975-z>

Sweet orange tabby kitten with amber eyes answers to the name Saturn (because of the rings on his tail and orange color) needs a loving home where he has indoor and outdoor access. He has an appointment on July 16 for rabies, distemper and revolution (so that he is worm and flea free) and a vet appointment on August 5 to be neutered. Finally on September 15 he will have his feline immunodeficiency vaccine and his feline leukemia vaccine. This means that he will be ready for adoption after September 15. He likes other cats and would do well in a home with another cat. I am not asking money for him, just a person with a tender touch to care for him. He also has a sibling female kitten also getting the shots, tests and being spayed. Adopting them together is a real!
