"Museum Art Collectibles" decorative lock blade knife in original tin. Gorgeous deer scene. Very ornate. Not sure what it is made of but it looks like antlers. Also has a brown tiger eye stone inlaid in the handle. Found in our basement. Don't know anything else about it. Great gift. Would be much appreciated by a hunter and/or knife collector. Very good, unused condition. One corner of the bottom of the tin has some rust. Cash Only. Call
