For sale a 1995 Nissan Altima motor has blown head gasket. Everything else on car works. I don't have time to put in a new motor. Transmission is auto and in great shape. Rear brakes are brand new, seats and upholstery in good shape. All power windows and locks work. Nothing is wrong with parts on his car. All body panels and bumpers on good shape. Will take 600 or BO. Make me an offer before I take it to the scrap yard
