

# CNC Wood Routing (SLC)

Location **Utah**  
<https://www.genclassifieds.com/x-569220-z>

I am in need of services for small run, prototype, wood cnc routing projects. Overall dimensions of projects are 18 inches by 18 inches. Thickness varies up to 2-1/2 inch. Right now, I am interested in the services of a small shop with low overhead. Thanks.
