

# 1970 deville caddy (11995 USD)

Location **Vermont**  
<https://www.genclassifieds.com/x-569280-z>

I have a 1970 caddy that has been stored indoors in the winters on blocks and very well taken care of. Has a little bit of rust above the skirt on the drivers side rear fender and the drivers window motor needs replaced and the drivers seat electric doesn't work. Exhaust manifold has a broken bolt and the starter seliniod is bad. The interior is dry and cracked back seat from leather being so old but the rest of the interior is clean. Other then thos few things she is clean and beautiful really low miles all original and can be driven away. Don't want to sell it but figured I would see if I could get what I want for.
