

I want to start a boy band (Everett)

Location **Washington**

I'm an 18 year old vocalist who can sing multiple genres of music from hip-hop, pop/rock, punk rock, and traditional barbershop quartet music.

I've been sing since forever and I wanna be something big just like the rest of the musicians who post on this site. I have performed on stage for multiple paid gigs and high school events. So yeah I need people who will be serious about this and can really be committed to this project.

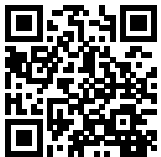

I'm looking for any guys out there who can play electric guitar, bass, drums, and extra vocals or any guy who can dance and sing.
