

# All your home renovation needs in one call (Newport)

Location **Vermont**  
<https://www.genclassifieds.com/x-569465-z>

I have 20 years experience doing just about all renovations and remodeling and custom upgrades to residential homes and also upgrade apartment buildings. Looking for work doing all areas of home renovations. I really enjoy what I do. I ran my own business for 10 years with great success and had to relocate due to family issues. So here I am looking to start up once again in the NEK of Vermont. I have found a few small jobs but need more to keep me busy. Not going to lie. I'm trying to get many more people from the area that need jobs done by someone that knows what they're doing. I have great references from doing business before and also am going to provide a text message I got from taking a job on a holiday weekend. I recently quit my job because working for people that don't value your work is really old when you know what your capable of. Plus I don't like cutting corners. So if your looking for home renovations you have to make the call and we can setup a good time for an estimate.

\*\*\*\*Below is a msg I received recently after meeting the guy that very same day and tearing an entire wall out of his home and rebuilding all of it on the 4th of July. So please call for an estimate and we will get your job complete for you with ease. \*\*\*\*

EPA lead certified as all contractors should be.  
 Reliable, dependable and affordable.  
 Free Estimates for all projects BIG and small.  
 2 decades of experience working on all types of buildings.

I do have all tools and will not charge for usage but materials are always included in a quote along with a 10% discount for prompt payment. I will be happy to provide a quote for your project. I will need to see the project after 4pm on Monday with photos of the work.
