This is a very nice round dining room table and 4 chairs. This is all hardwood and is very heavy. We purchased brand new 2 years ago at a high-end furniture store called Razmataz in Arizona for around 1400.00. The chairs have a very nice fabric and a lot of cushion (very comfy). There is a lot of detailed inlay work in the table and chairs (seen in photos). The only reason we are selling is because we need a bigger table as we now have 5, soon to be 6, people eating at the table. Please email with any questions.

The diameter is 48" and the height is 30"
