These new rings have been often been sold at a price on Craigslist, eBay or
 locally and sold for a WAY too much for their jewelry. I've forced clients to sell when it's only
 worth 20-50% of the original. The problem is that the prices are MORE than the company's costs
 WHOLESALE in the first place.

If you are considering buying a used car, let us have the chance to match their price first, with better styles, better quality and NAW with warranty, service, advice, and trust. When it's hundreds or thousands of dollars, why risk it?

-We take trade-ins! For any product sale we'll responsibly recycle your silver, gold, and diamond jewelry,

and give you a fair and high trade in value.

- Call me, Chris, or reply to this AD with your questions. Thank you for the opportunity to serve you!

-We buy gold, diamonds, and silver, for high market rates. We believe most jewelry sellers deserve the most money, but many companies use unfair tactics to pay you less. Our policy is equal treatment for every client, clear and fair offers, and free information for everyone about their fine jewelry questions. We are the top choice for savvy sellers!
