Hello!

We are a small group of people that share the greatest things we know with each other.

We feel that meeting new people is one of the greatest things. Everyone has an amazing ability or some unique knowledge, this is the only possibility that exists. The purpose of this is for: meeting new people, sharing knowledge, and succeeding in anything. Our aim is to further our creation of a mastermind group.

I am Joel, the group creator. It would be great to talk with you. If you would like to know a bit more about me, I am a creative person who is also a social butterfly. I help people with success in anything, creative solutions, and other things that I cant list.

I have created multiple business's, one of which became large enough to take up time that I could not run the other small ones. Currently I am looking for contractors, mentors, and other help. Many people love what I do for them, I have started a new business plan that will go into effect soon.

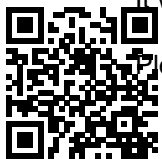

I am one to be creative in almost every possible direction. I create inventions, effective methods to teach people, am a philosopher, a creator of psychological definitions, come up with TKD styles, and more.

I also work with alternative medicines, free advice is available especially from our family who has studied for 30 years.

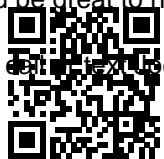

I am part of two amazing groups of network marketer entrepreneurs, we are successful and help others to be that way also if this is right for them.

Enough about me, information has not nearly been written down to describe, I prefer not to put that in a simple ad online. We have others that have other profiles also.

It would be great to hear from you and find out about you! This group is what you make of it, truly! It will form in its own way to your aim.
