

Looking for inventors

Location **Wisconsin** https://www.genclassifieds.com/x-569677-z

I am an MSOE student, small business owner, inventor, philospher, TKD instructor to make it short. I am looking to bring people together so that inventors and others that wish to share knowledge, can help each other to excel to a point that they belong at. This is also for fun.

I must admit, part of this ad was put out because I need help to make money off of an invention, which is a difficult path.

My phone number is 414-JUS-JOEL

Have a nice...
