

Small Wooden Rolling Shelf Cart Stand, Natural

Location **Washington**
<https://www.genclassifieds.com/x-569722-z>

Nice little wood oak-style rolling end table, wheeled with adjustable-height center shelf and beige / tan laminate finish. This is a charming piece but we have no place for it in our apartment anymore. Measures ~29.5" tall, 20.5" wide, 15.5" deep. (I added a couple photos with household objects so you can get a better sense of the size.)

We used this as portable shelving for a small microwave and a few DVDs, but it's versatile enough for other indoor situations like living room / bedroom, etc (?). Great as an infrequent light-duty cart or smaller corner TV stand, this could probably handle more weight with extra reinforcement on the back. In good shape with light signs of wear, as pictured. Caster wheels are very good.

Please email me with any questions and to arrange pickup. I'm in the same building as the Black Bottle restaurant. We're on the 3rd floor but I'm happy to bring the table down to the lobby as we have no elevator. Thanks!
