

Australian Shepherd Puppies

Dam

Location **Tennessee**
<https://www.genclassifieds.com/x-569770-z>

We have a litter of Australian Shepherd puppies due in August. I am currently taking a waiting list on the possible puppies. Before you are on the list, I will send you a question form via email to answer. Please only serious inquires who are truly interested in buying a puppy.

The Dam is CKC registered and is from champion bloodlines (Faithwalk Aussies). She is a blue-eyed black tri. Dam's personality:

River is an amazing dog, she couldn't be better. She is our "go to" dog and is always up for an adventure. She's extremely intelligent, loyal, and obedient. She loves riding the 4-wheeler with us and riding in the truck. All we have to say is "load up" and she'll hop on ready for a ride! She knows quite a few commands and is a quick learner. I've also practiced basic agility with her and it took no time.

â€¢ â€¢ â€¢

The Sire is NKC (pending) and CKC registered. He is a dark blue merle tri with blue eyes.

Sire's personality:

Willow is a hyper and athletic, plus he's always looking for a car to "herd." He is affectionate and loves people! He listens to basic commands and learns with a little training. He's intelligent and loyal.

â€¢ â€¢ â€¢

I decided to breed my dogs simply because we love puppies, the parent's personality benefits, and their lineage.

The Sire and Dam have not been health tested but in their lineage they have not had hip, eye, joint, or genetic issues (such as carriers of the MDR1 gene). The puppies are being sold as pets, not breeding or

show quality. This is why we didn't worry with all of the un-necessary testing.

The puppies are being raised:

- On a farm and dew-clawed records - with vaccination papers - with pedigree papers - with health guarantees - with a 14 day money back guarantee - with a 14 day money back guarantee - with a 14 day money back guarantee

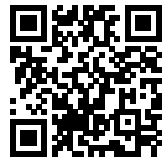

- Tails docked and dew-claws removed (unless born with a natural bob tail) > The Sire has a natural bob

tail and passes this on to his puppies.

If you'd like to keep the tail, deposit information is listed below.

- No fleas or ticks

They will be raised on a farm and socialized from birth. We are expecting various colors such as blue merle and black tri/bi. The Dam is red factored and we could possibly have red tri/bi puppies show up. In their last litter, we had an array of eye colors. Blue eyes, odd eyes, brown eyes, light brown eyes, and

marble eyes.

Pricing:

Solids - \$500

Merles - \$600

Prices are firm.

Deposits:

There will be a \$300 deposit down. This is only refundable if a health issue occurs with your puppy, death of the puppy, or if the puppy is under SIX weeks of age and you decide to change your deposit to another available puppy.

NOTE

If you choose to keep the puppy's tail, the deposit will be the full price of the puppy up front. If for any reason the puppy becomes ill or passes away, the deposit will be re-funded back to you. Otherwise, it is NOT re-fundable.

We do not ship! Only local meet or pickup.

Please send me an email to [daus_valleyaussies AT yah0o . c0m](mailto:daus_valleyaussies@yahoo.com) and I'll message you the question form. Thank you and have a blessed day!
