Our house sitters did not do a very good job,
 A. The things they where asked to look out for (bills, and our pets)
 They did neither, of these things while they live bills free in our house while we're out of town.
 B. All my utilities where shut off, so rather then fix the mistake they when to a hotel
 C. Apparently they stopped at a holiday inn on the corner of country club and main in Mesa (if you didn't know there's really not one there) and then went to another hotel and realized my 2.5yrd all black (even her tongue) chow mix dog was no longer in their Jeep.
 D. Pissed at us cuz they didn't tell me the bills came and got shut off they call me screaming, their putting my dog in a shelter, it took 3 of these phone calls from them to finally admit they lost my dog b4 they even called me the first time.
 E. I've done everything in my power to rectify the utility situation, and now their putting my husband dog on the line
 F. I would have liked to exhaust my search efforts before telling my kids that our family member is missing, but they face booked my daughter telling her in a heartless message and she found out wo and one there to comfort her
 Please if you have seen my Si contact me, I've been doing everything in my power to find my missing dog pet harbor and Craigslist constantly looking for
