Smart Club is a babysitting agency that offers premier Educational Babysitting to families living in the South Bay and West Side.

Smart Club's Educational Babysitting program is fun and exciting! We are different than typical babysitters because we strive to make the babysitting period a fun as well as an educational experience. Our babysitters enjoy working with children and are creative in putting together stimulating and engaging activities for them. We believe babysitting can be made a great learning experience.

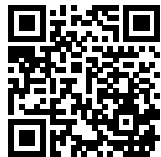

All of our babysitters have passed a full background check and health check. They are CPR and First Aid certified, have provided great references, have a valid driver's license and insurance, have extensive experience working with children and love taking care of children. Our rate is: \$15/hr for 1-2 children. Also, there are subs that are always available if your sitter cannot make it for any reason.

If you would like more information, please check out our website at: www.SmartClubTutoring.com or you can call Andrea
