Help! I quickly need someone to assist my son with an online course this summer. Let me be perfectly clear: I DO NOT NEED A PROFESSIONAL TUTOR. I need someone with a positive attitude and excellent organizational skills who is willing to motivate my son and and keep him on task. I would expect 2-3 hours daily with hours that are negotiable. Tutoring would be in my Columbus home, although the library or another public place is also possible. I am willing to pay a bonus at successful completion of the course. This would be a great summer job for a responsible high school senior or college student. If this course goes well, the job might be extended to after school tutoring for the fall. Please contact me by text or email, and I will call you back with more details.
