I have a HP - Split 2-in-1 13.3" Touch Screen Laptop. It has the new Intel Core i3 - 4GB Memory , 128GB Solid Slate Drive. It is a Modern Silver color & the keyboard it Black, Windows 8. It is a very cool laptop to use or to just slide off the keyboard and relax and use as an tablet. I am not a big fan of the touch screen after I bought it, it seemed very cool in the store. I have used it for some minor school work. I bought an Apple Desktop instead to work from my office. Minimal tiny scratches from use a few times. Excellent condition.

I am asking \$450.00 or b/o , but I am leaning really a lot towards the \$450.00, unless you have a trade also to talk about. You can text/ call me, or e-mail above.

If you do not clear it all out , It is downloaded with all of Microsoft Word for Home & Student 2013 (work,excel, access, publisher, onenote, outlook & powerpoint) , Which in and at itself that program is A LOT of money to.
