I am a Nurse and my husband works on the north slope. We are looking for someone interested in a long term, part time, great paying job. We have 3 children, one of which is in elementary school. I am looking for someone available to provide childcare in my home on my 3 or 4 twelve hour work days per week. This would only be needed on the weeks my husband is out of town working so around 6-8 days per month. We will provide a vehicle with car-seats loaded up so that you are able to take our children to different activities such as dance, gymnastics or just out for fun at one of the local parks. We expect you to play with our children, read them books, cook for them and clean up after them, but no extensive house cleaning. My oldest will be able to catch the bus from our house and then also be dropped off after school by the bus. The younger two would be most of your work. If this sounds like something you would consider please email me with any question and we can talk about pay and hours. Thank!
