MISSING SINCE AFTERNOON OF JUNE 29, 2015

Daisy, a female blue nose pit bull, has been missing from our home in Tabor since Monday afternoon. She is about 5 years old, charcoal grey in color with a white chest and one white front left paw. She had a fuscia colored collar with a brand new ID tag on. Very good with kids and other animals. She is also chipped as we adopted her from the Nebraska Humane Society. If you know where she is or who took her please give us a call. My kids are really sad.

If the person (s) who took her see this ad, know that the local police and sherriff are looking for you, so it would probably be a wise idea to return all the family pets you have recently stolen in this.
