Meet delicious and delectable Cheesecake! (Animal ID #A1039524)

Cheesecake is a very special girl whom we have in our care after surviving death-row at a crowded city shelter. She is pretty, elegant, gentle and very affectionate. Her calm and quiet demeanor make her the perfect lap dog and companion for all occasions. Cheesecake is spayed, approximately 2 years old, house-trained, very calm and very affectionate.

A volunteer writes: Every bit as sweet as her name, Cheesecake is a delightful girl with whom to spend some time. Gentle, calm, easy, great leash manners, house-trained, gorgeously groomed and full figured in her gray and white coat she's the perfect soft companion. I met Cheesecake first in her play group, and while she was happy to be there and is tolerant of other dogs, she wasn't engaged in play at the time. She greets other dogs appropriately with a gentle tail wag and great manners, and is every inch a lady. I stopped to take some pictures of another dog in the park, and she stood quietly watching until I was done. Good girl Cheesecake! She was then a great model for her own pictures, making soft eye contact, giving me a big smile and enjoying her reward treats. I turned on the water fountain in the park so she could drink and since the water was splashing her on the head she didn't drink. She then tried to dry her face with her paws! Our little diva didn't like getting splashed! If you're looking for a gentle, calm and easy lifetime companion, Cheesecake is the girl you want to meet. Ask to meet her today.
