Do you really believe you're getting paid what you're worth?

Are teachers getting paid what they're worth? Are soldiers?

What about mothers?

Jobs aren't designed to pay people for their real value, they're designed to get the job done for as little money as possible.

We believe people should be paid for the work they do, and not just for their job title.

That exceptional work, should receive exceptional pay.

And while maybe we can never pay you what you're really worth,

We know that you'll agree that all business should be grounded in performance, and not just attendance.
