PLUMBER. There is a leak coming from the shower head around the shower valves. It causes that leak in the living room and also in the bathroom. There is a wall with a leak in the bathroom. We need to open up the valve in the shower to expose the bathroom pipe and fix the leak. This is a scenario where you do not have to replace the shower valves which is expensive we would say. You need to fix the leak and possibly patch it. You do not have to do any painting.	NEED IMMEDIATELY PLUMBER HANDYMAN (N MIAMI BEACH)
