I have some jobs coming up that I will be needing help with. I would like to find someone to paint with me. If you have your own equipment, know how to tape, cut with a brush and roll out walls right or If you do not have expectance but willing to learn or be trained I all willing to teach as long as you are willing to follow directions and do as you're told.

In a helper I would like a labor guy or gal to help on project and on home inspections as a helper. Maybe 1 person can fill both jobs. I think right now it will be part time and lead to full time.

Please email me your experience and skills and let's go from there. Plus your contact info please.

Thanks

Honesty and to be truthful goes a long way with me, tell the truth no matter what.

I can't pay top pay to start off with; I start off everyone at a set rate to see where they are and go from there. I do pay well for those that disserve it. You having a DL and car is key. I would like to hire vets.

If you have substance abuse problems, this is not the place for you. No office to you that do but it just makes things to hard and cause too many problems. Sorry.
