Not everyone is good at painting or has the time to do it them self's that's where I come in. If you have something that needs painting, stained or anything like that call me. You may think it will be too much money but it may be much less than you think for that make over you want.

I am a legit company but I be leave in being fair to my clients and you cannot beat the quality vs price that I know. I have worked for co/people in the past who said they where a legal co but sad to say they were not.

Whatever you need. Let me know and I will do my best to give you the best deal I can.

If needed I can take credit cards as well

I also have paint left over from other jobs, If you like them I can give you a good deal on that.
