

# Home Inspection done right amp at the right price

Location

Minnesota

<https://www.genclassifieds.com/x-571231-z>

I am based out of the N metro but I can go to where ever you need me.

I have been a certified home inspector for years and I was a contractor in every construction trade there is for 26 years. I have more experience than most home inspectors. When a person is checking out your most expensive investment of your life don't you want the best you can get?

I have completed over 2200 inspections so that and all the homes I've built and worked on over the 26 years i can say - I have just about seen it all.

Because there are things that are very important to know about when buying a home. Does your home inspector know what they are and what things to be on the lookout for. . . I bet they have no clue. Ask them. If they don't know, you better call me and have me inspect your home because what ells don't they know?

For a short time.. only good till Friday 3-20-15 I am offering a \$50 discount.. You must schedule your inspection before this friday to get the discount. Inspection can be done at a later date but to receive the discount you must call and schedule or reserve a spot.

Save some money and get the best inspection around. With me you actually get more then you pay for! Trully hard to find these days if you had to pay based on experience, knowlage, services i provied my clients you would pay over \$500

Call today. I take credit cards, check and
