NEED NEW WINDOWS (United States)

Location **Kansas**
https://www.genclassifieds.com/x-571336-z

f you are ready to replace your windows on your house give me a call. I have been a window installer in the Kansas City area for 20 years. I installed 1500+ windows last year. Wood tearouts, metal tearouts, sliders, picture windows, and combination units. I can install any kind that you need. I know that some of the high end companies charge 600-800 a window installed. There is no reason to pay that much. Don't get sucked into the 189.00 or even the 164.00 a window installed garbage. That is for a crappy little window that will be installed by a guy that does not care about you or your house. My dad was a carpenter and used to say that you will pay for a good job once and a cheap job a hundred times. You will find that I will install a great window at a fair price that is half of what the big guys charge. You will not be disappointed our standard window comes with the following:

1. virgin vinyl (not recycled junk)
2. welded corners
3. constant force balances
4. double hung
5. night locks
6. low e glass
7. argon filled
8. metal screens (not the cheap screens found in most windows)
9. 5 year installation warranty
10. lifetime window warranty
11. a clean trustworthy installation crew

This is for wood window tearout with no wraps. Any wrapping rotten or missing trim will result in an upcharge. There is a 6 window minimum for this price.
Call Tom at for a free no hassle
