Newcomer and/or first time models always wanted. Experienced (250+ girls) amateur photographer is always looking for new people to shoot with. Shoots are fun, sexy but classy, completely safe with references and tons of examples available, always always treated very respectful. No certain "type" is wanted, just be a female, pretty (many types are pretty), slim to average build...hair color, eye color, height, doesn't matter. I look for a variety so it doesn't matter if you are goth, emo, sporty, girly, nerdy, tattooed, preppy or tomboy or anything in between. I shoot often so we can find a time that works for both of us. This is great for aspiring models to help get your foot in the door and get some portfolio photos, a girl wanting a present for her bf or husband, or a girl who just wants to try something new and exciting or do something to give her a little confidence boost. If interested reply and lets.
