I am a professional photographer seeking women for an artistic photography project with attention on the beauty of natural sagging breasts.

The focus of this photography project is to capture breasts in their natural resting state in various positions which will emphasize their curves and shapes. Size is not the important factor. The real emphasis is the individuality of each person's breasts that truly makes them Unique, and simply beautiful to behold.

I would like to begin a photography project which will clearly display the beauty of each person's natural and unique form.

I am seeking all sizes, saggy is great, saggier is even better. I am looking for stretch marks, wrinkles, misshapen & uneven, unusual nipples, unique areola, etc. The images will be professionally photographed and focused only upon the breasts and upper torso.

I am a professional and conduct my work with complete discretion. No names or faces will appear in the images.

This is a no pay collaborative project. You will receive all images created.

Please reply with an image or two of yourself, preferably your upper torso.
