Before going through all the details, i find it necessary that i go through the filter first.

- -MUST BE OPEN MINDED, CREATIVE AS HELL, CONFIDENT.
- -Must be 21+
- -Must be younger than 25
- -I am the Frontman
- -Got a bassist
- -Got a Keyboard player, might need a back up
- -All three of us are very laid back, but know when to get serious.
- -Need a Drummer, preferably jazz influenced. but opened to any.
- -Need a Lead Guitarist, preferably one who can improvise.
- -All genres are appreciated by us, in all kinds of ways.

Keeping it short and simple, We plan on hitting the ground running on this, as soon as we find the right bandmates.

In my generations music, i feel like music in general has been watered down for the masses, the radio has very little to offer anymore, i find myself trying hard to find music with substance, value. if i feel this way, then i know for sure there are people out there who feel the same way too.

My goal is to create music that not only influences our generation, but the next ones after us.

Send me a photo of you and Text what instrument you play if you are serious.
