look at more info on website..new look!  
[www.LoveMuttsRescue.org](http://www.LoveMuttsRescue.org)

Donate your time, you home, unused dog/cat things, tax deductible (paypal button on website)  
We have need for heartworm prevention, if you have a pet that has grown bigger !  
Our dogs are all heartworm tested unless puppies..all receive this & flea/tick prevention.  
it is the healthy thing to do.

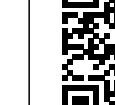

### Some needs:

>Beagle, 20 lbs, may need eye to be removed, just spayed, easy house guest, quiet in crate, QUEENIE  
>AM Staff Terrier (Pit) found as a puppy, house dogs for a year...I suggest NEVER to let cats outside w/  
dogs...owner did, and 2 dogs killed an older cat..kids are upset and want dogs gone..one is adopted..the  
pit is DEAF...picture is on website under MARCUS "Chubby Cheeks" who still sleeps w/ owner, but her  
children may ask for him to be pts...

>Dachshund . hard to place..rough start...lady w/ 5 other dogs and works 12 hours a day has him READY , except he needs to get used to men around..and she needs a vaction from fostering for a few weeks... BUTTERSCOTCH

>WILLA (WILMA) rescued by a shelter volunteer thru Love Mutts because this hunting dog don't hunt, and deserved a 2nd chance at love..she is so affectionate..crate/house trained..but we discovered , she had a chemical burn on her side..it is now almost healed..she is being spayed today in Kinston, and the

volunteers husband may be having strokes, so she can not care for WILLA any longer, we do not want her to deteriorate in a nursing situation...  
WILLA is a pure chihuahua puppy, about 4 weeks old with stage 3 heart murmur. Some growth plate issues, she is a beauty, sweet and happy with her mom. This foster is asking for adoption fee.  
Willa is a foster on 15% of rescue with 15% of her heart murmur needs.  
>some have individual issues..to be explained, as we fully disclose and it should be on profile
