The fountain of life is helping to restore the lives of women that were incarcerated.
 Why do we help for free?
 Because money should never be the reason for not helping someone be successful

The Lord is my shepherd, I shall not want. You see the truth is God helps us walk "through" this journey called life and even when we have darkness in our life God will help us walk through this pain. God will always be there to save us because He will not let us go.

Each mentor at some point in their lives have gone through just about every heart ache, prison sentence, abusive relationships, gut wrenching hurt, abuse, drug addictions, homeless struggles and survived!

We survived! And now "We are Stronger together" We help you become stronger, you are not alone in this world.

We work with wounded hearts that need healing to restore their life.
